HOW TO CLEAN LAMINATE FLOORING

- Use a damp micro mop or vacuum cleaner with a brush and no beater bar.
- Avoid excessive water.
- Detergent is unnecessary, as it may leave a residue on the flooring surface or stain the boards.
- Instead, spray pure water onto a damp cloth or micro mop to remove easy marks such as tea, coffee, or cold drinks.
- For stubborn marks, use pure acetone or a similar solution to remove 99% of most stains, including nail varnish or lipstick.
- After using acetone or a similar solution, clean off any residue with a damp cloth.
