

THE BEAUTY OF OUR WOOD FLOORING SOLUTIONS.

Discover the timeless elegance of solid wood flooring for your home or office. We take flooring seriously, offering only the best quality products.

Our Fin Oak engineered hardwood flooring range is popular with its beautiful character, durable finish, and versatility.

We are proud to be the only supplier and installer of products that outlive their original warranty. So investing in a quality solid wood floor will add value to your property and last for years.

ADVANTAGES OF OUR FLOORING.

Our engineered hardwood flooring offers numerous advantages for your home or office space.

- Environmentally Friendly: Our manufacturing process uses less precious wood.
- Pre-Finished: Quick and easy installation. As a result, there is no waiting period to walk on your new flooring.
- Long Lasting: Our planks can be sanded up to 3 times in their lifecycle, guaranteeing they last for years.
- Stable: Our rigid planks resist warping and bending. Providing a stable and secure surface for your space.
- Locking System: Our tight-fitting locking system guarantees that water is less likely to penetrate and allows for easy removal and re-installation of damaged or required planks.
- FSC Certified: Our commitment to environmental sustainability is reflected in our Forest Stewardship Council certification, promoting responsible forest management globally.

WOOD FLOORING DATA SHEET

HERRINGBONE MULTILAYER CORE – 1 STRIP:

Size of Panel:	150 x 930 x 14/3mm, T&G installation 3mm Oak Top face with 10mm core and a 1mm backing board
Nature Grade:	A natural wood-grained pattern is clearly visible. Variations in color tones and an unlimited number of small knots, up to 20 mm in diameter, are permitted and filled. Sapwood, central core, cracks, and knots on the edge are not allowed.
Smooth Surface Finish:	A delicate sanding gives the wood a silky texture, closing the pores while highlighting the grain.
Warranty:	25year Limited Manufacturers Warranty
Recommended Coverage:	Seamless glue-down installation

HDF CORE – 1 STRIP

Size of Panel:	192 x 1210 x 10/2mm Valinge 2G click installation
Rustic Grade:	2mm Oak Top face with 7mm HDF core and a 1mm poplar backing board Full of character with visible knots have been filled and sanded to complement the natural figure and color of the boards.
Brushed Surface Finish:	Wire brushed to create long and linear strokes. This brushed texture really accentuates linear grain patterns.
Warranty:	25year Limited Manufacturers Warranty
Recommended Coverage:	12 x 12 lin.m in length/width

WOOD FLOORING DATA SHEET

HOW TO CLEAN WOOD FLOORING

As a proud owner of Solid Wood Flooring, maintaining the beauty of your floors is essential.

Here are some tips to keep them in top condition:

- Immediately clean up spills and avoid letting stagnant pools of liquid remain on the floor
- Use a damp microfiber cloth or mop for regular cleaning, avoiding excessive amounts of water
- Use felt pads under furniture to prevent scratching and avoid dragging furniture across the floor
- Use a vacuum cleaner with a brush action, not a beater bar, to clean between the joints
- Trim indoor pets' nails to avoid scratches
- Avoid using detergents containing ammonia or brooms with hard bristles, which may damage or stain the wood.
